by Dunja, Mina and Luka

Sea turtles are graceful saltwater reptiles. When they are active, sea turtles must swim to the ocean surface to breathe every few minutes.

The mouth of this turtle species looks like the beak of a hawk, thus the name hawksbill was given to it.

The hawksbill sea turtles get their name from their distinct beak-like mouth. Hawksbill turtles are beautiful, medium sized sea turtles.

Hawksbill turtles primarily live in the tropics and subtropics of the Atlantic, Indian, and Pacific ocean.

No one knows exactly how long hawksbill sea turtles live, but like other sea turtles they are likely long-lived.

A hawksbill's diet consists mainly of sponges that live on coral reefs.

Female hawksbill return to their natal beaches every 2-3 years to nest during the months of June through November in the United States.

**Paul Bruce Dickinson** (born on 7<sup>th</sup> August, 1958) is an English musician, best known as the lead vocalist of the heavy metal band Iron Maiden. Bruce quit Iron Maiden in 1993 but he rejoined the band in 1999.

He sang in Samson, Tribe of Gypsies, Godspeed, Sack Trick and Ayreon.

When he went to Iron Maiden audition, he had to sing 3 songs. His first album is called 'The Number of the Beast'.

Apart from being a famous and professional singer, Paul is also an airline pilot, broadcaster, songwriter, author and entrepreneur.

**Michael Jackson** was born on 29<sup>th</sup> August, 1958 and died on 25<sup>th</sup> June, 2009. He was an American recording artist, actor and dancer. He is still often referred to by the honorific nickname 'The King of Pop'.

The eighth child of the Jackson family, Michael debuted on the professional music scene along with his brother as a member of the Jackson 5 in 1964 and began his solo career in 1971. In the early 1980s, he became a dominant figure in popular music. The popularity of these videos helped to bring MTV channel to its fame. Jackson's 1982 album 'Thriller' is the best selling of all times. His other albums including Off the Wall, Bad, Dangerous and History also rank among the world's best selling.

Jackson's skin had been medium-brown color for the entire duration of his youth, but started to grow paler in the mid 1980s. The change gained widespread media coverage including rumors that he might be bleaching his skin. According to J. Randy Taraborrelli's biography from 1986, Michael was diagnosed with vitiligo, a condition that causes depigmentation of parts of the skin. As Taraborrelli noted, vitiligo may have been a consequence of skin bleaching. He also claimed that Jackson was diagnosed with lupus, an autoimmune disease. Both illnesses made him sensitive to sunlight. New York plastic surgeon Dr Pamela Lipkin said: 'When you look at the other features, the skin bleaching sort of goes along with what I think was his quest for beauty, so I have to wonder what came first, vitiligo or lighter skin.' On 25<sup>th</sup> June, 2009, Michael died after suffering cardiac arrest at his home.

## The story of the Titanic

Written by Tea, Anđela, Milica, Ivana, Mia and Marija (V)

Our writers did not like the ending of the film, so they've written their own versions:

...Titanic sank and Rose sank with it. They died. (Tea, V)

...Rose's fiance told the captain to go faster. The captain said: "No way, because Titanic is too big, and it can be dangerous". The fiance was very angry, and he jumped into the ocean and died. Rose and Jack were very happy together. Titanic travelled to America, and Rose and Jack married and had children. (Anđela, V)

...Jack and Rose found a piece of the ship and fell asleep. The next day, they found them and saved them. They got married and lived happily ever after. (Milica, V)

...The captain was nervous. He told everyone to put on the lifejackets. The water was coming, everyone knew that the Titanic would sink. It was horrible. People were jumping from the ship. Rich people were already safe in lifeboats. Jack and Rose were with them, because a friend of Rose's mum helped them. She said that they had to survive because they were young. The captain approved and then killed himself. Later, the lifeboats came. Rose and Jack got married and lived happily ever after. (Marija, V)

Titanic started to sink. Penguins heard the noise and they came to rescue people from the ship. People jumped on penguins and then penguins swam to the coast. After that seals helped people to find a restaurant. Altogether they went to the restaurant and ate fish and chips. Rose and Jack were happy to the rest of their lives. They adopted a little penguin and called it Pingo. (Mia, V)

'Harry Potter and the Deathly Hallows' directed by David Yates is a science fiction movie. The main stars are Daniel Radcliffe (Harry Potter), Emma Watson (Hermione Granger) and Rupert Grint (Ron Weasley).

The plot is gripping and unpredictable. With Voldemort's power growing stronger, Harry, Hermione and Ron have to stop him. To do that, they have to find and destroy the horcruxes – parts of his soul.

The actors are outstanding and the dialogues are good as well. The

special effects are convincing and really imaginative. The locations where the movie was filmed are breathtaking. Hogwarts looks great in every scene.

I really enjoyed all parts of Harry Potter. However, my favorite is Harry Potter and the Deathly Hallows. So, if you are ready for an excellent story, romantic tensions and fighting dark forces, Harry Potter is the right movie for you. It is definitely worth seeing.

Teodora Maruna VIII B

Mia, Mili, Comi, Olja, Sara, Nataša, and Natalija (VII) have enjoyed watching the film **About Time** and they think you should see it too! Just to get you interested, here's how it starts:

There was one guy, Tim, who lived with his family – mum, dad, sister and uncle. Every weekend they spent on the beach skimming stones and eating sandwiches. After that they would go home and watch films in the garden no matter what the weather was. One day, his dad told him the family secret. Men in his family have the ability to travel in time, but only back in time, not into the future. All he had to do was to go to the dark place, clench his fists and imagine the situation in the past he would like to change.

Intriguing enough?

## Twilight

Twilight is the first part of the famous Twilight saga. It is set in the rainy little town of Forks, Washington. It's a sci-fi romantic movie.

After Bella's mother remarries, Bella (Kristen Stewart) moves to her father's house in Forks. She is an ordinary girl and she doesn't expect anything to change. Things change when she meets and falls in love with mysterious and handsome Edward Cullen (Robert Pattison).

Both acting and filming are great. Actors are awesome and their acting is very convincing. Filming is amazing and special effects are excellent.

If you like fantastic movies with some action and romance, this movie is for you. I would recommend it to everybody and I think you will love it.

## International Cuisine

Here are some recipes that we recommend:

### Pizza – Italy

You make some dough with flour and water and roll it flat. Then you make a tomato sauce with onion, garlic and herbs and spread the sauce on the dough. Sprinkle on some cheese and other ingredients like olives and ham – anything you like really. Then bake it in the oven.

### Sushi – Japan

You boil the rice and add some vinegar and a little sugar and salt. Then, while the rice is cooling, slice the fish very thinly. Now, pick up a small amount of rice in your hand – it's best to wet your hands so that it doesn't stick to them – and mould the rice into an oval shape. Then lay a piece of fish along it.

### Goulash – Hungary

It's very easy to make. You need some beef or lamb, onions, green peppers, tomatoes, paprika – those are basic ingredients anyway. It's best to fry the onions and beef for a few minutes first, and then put everything into a large casserole with some water. Put it in the oven for a couple of hours and it's ready.

### Indian Dish

There are lots of different versions of this dish, but this is a quick and easy one. First chop up the onions, garlic, green pepper and fry in the oil. Then stir in the cillis and ginger, and the spices – cumin, coriander and turmeric. Then add the pieces of chicken and stir them round so they're covered in the sauce. Cook it for about 20 or 30 minutes. Finally, add a couple of spoonfuls of yoghurt. Then serve it with rice.

## Josip's Pizza Rolls

Add one more crust and grind 300gr of ham with some oregano.

Add another crust and put mushrooms on it.

Add one crust on top of it. Mix 2 eggs and the sour cream and spread it over this crust, however, leave some of the mixture to spread over the entire roll in the end.

### INGREDIENTS

- crusts
- 200gr ketchup
- 200gr ham
- 400gr cheese
- 150gr mushrooms
- 1 cup of sour cream
- 2 eggs
- oregano

Add the last crust; spread 100gr of ketchup over it and the rest of cheese, ham and mushrooms.

Roll the crust and put them in the oven.

Spread the mixture over the roll.

Bake for 30 minutes on 200 grad Celsius.

**SERVE WHILE HOT! ENJOY!**

### Paella – Spain

There are loads of ingredients, but the basic ones are rice, seafood, chicken, spicy sausage, pepper and onion. It's quite complicated, but I'll tell you roughly what to do. First, you fry the onions, sausage and pepper in a large flat pan, and grill some chicken legs. Then add the rice and chicken to the pan, with some stock. Cook it for about 15 minutes and add the seafood towards the end.

Dear Dan,  
I have a serious problem. My brother spilt water on my mobile phone and it broke down. At first, I wanted to beat him, but now I think I should revenge. What do you think? Can you give me some advice?

**John T.**

*Dear John,  
I think that your brother is really sorry that he broke your phone. I don't think you should revenge. You should maybe ask him to give you some of his savings to help you fix it. I think that this would be his lesson not to touch your belongings again.*

Dear Dan,  
My friend is love with the guy who is very bad. She was an excellent student, but since she started liking him, she has not been studying much. She is more worried about what she looks like. The worst part is that he doesn't even like her. I don't know what to do. There are so many better boys, but she chooses this one. How could I help her?

**Laura B.**

*Dear Laura,  
I think you should talk to her and tell her that you think he doesn't like her and that he is not the right one for her. Tell her that there are other better boys.*

*You should also tell her that she needs to study and that her grades are getting worse.*

Dear Dan,  
I usually don't have that many problems, but there is something that's bothering me – my sister. We are both very nervous when around each other; watching TV can lead to a fight. She thinks that she can do whatever she wants just because she's older. I thought we are not going to fight that much because I'm more mature now.

**Sam D.**

*So, what should I do before I totally freak out?  
Dear Sam,  
Before you totally freak out, you should count to 10 and for those 10 seconds try to think about the situation. Then, go to your room, do things you like to do and forget about your sister and the problem you have.*

I couldn't wait to finish my second class and start a break, because I was too hungry. I ran down the stairs to the school canteen and took a sandwich with lots of ketchup. While I was walking to the classroom (Math was the next class) I noticed everyone laughing at me. Then my class-mate said: "Look at your T-shirt". There was a big stain, big like an Atlantic Ocean. The rest of the Maths class I was hiding behind the friend's back. After that class I went home to change my shirt.

**Mia VII**

A really embarrassing thing happened to me last year. I was walking down the street when suddenly a stranger pushed

me and I fell in the puddle. When I arrived to school my friends laughed at me and my class teacher said I needed to change my clothes because they were soaked. Luckily, my friends forgot all about it tomorrow, because we had a Math test.

**Olja VII**

I was in the music class with my friends. We learned about music from the past. I was talking to my friend while my teacher talked to me. She was angry. She looked at me and she came to my friend Vanja. She heard me talking again, and she looked at me while I was talking to Vanja. Vanja sent me a kiss and I replied. Teacher thought that I sent a kiss to her and she looked at me like I was crazy. I was so embarrassed. Other kids started laughing and the teacher was confused as I was.

**Comi VII**

At school I brought a large croissant with cream. I didn't have time to eat the croissant at the break but I brought the croissant to the classroom. I was hungry. I was looking at the croissant when my Math teacher entered the classroom. I put my snack to the side. When the lesson ended, I stood up from the chair. My butt was brown because I sat on the croissant! Everybody looked at me and laughed.

## WIEN

Meine Lieblingsstadt ist Wien. Ich war schon dort und es war sehr toll. Ich habe das Stadtzentrum, Prater, das Schloss Schönbrunn, Zoo und Pandorf besucht. Dort bin ich auch Schiener gegangen. In dem Zoo habe ich viele Tiere gesehen. Im Schönbrunn hatte ich auch tolle Zeit und im Prater hatte ich viel Spaß. Ich möchte gerne dorthin wieder gehen.

Dort gibt es viele Cafes, Sportplätze, ein Golfterrain und einen Kletterwand. Viele Kinder und Erwachsene gehen dort gern. Über dem Strand gibt es eine Brücke, die zu anderem Ufer führt.

## Petrovaradinska tvrđava

Pertrowaradiner Festung ist eine Festung an der Donau in Novi Sad. Sie ist im 1780 gebaut und sehr bekannt an einer großen Uhr. An der Festung gibt es ein schönes Hotel. Dort ist es auch ein Museum, das viele Katakomben hat, die ziemlich interessant sind und auch viele andere Tünele. Im Sommer auf der Festung ist ein bekanntes Musikfestival. Von oben hat man einen wunderschönen Donaublick. Ich mag die Festung, weil ich in Novi Sad geboren bin.

## Bug eating festival

Have you ever eaten a bug? If you like exotic food, this will be paradise for you. In Austin, on June 29 people organise a bug eating festival. There you can try how it tastes when you eat a bug. They make cooked bugs, fried bugs and live bugs. People have been arriving to Austin for hours and days just to eat bugs. This festival has been held for 6 years. Some people have brought their own insects. They give the insects to the chef to cook them

and then they eat them. Last year people were able to try chocolate coated insects. The ticket for this festival costs 5\$ per adult. I really can't understand people who pay to eat this, still that might be interesting to try.

## OUR TOWN The playground behind my building

My favourite place in our town is my playground. It is behind my building. I love this place because I can play in there any time, because to me it looks like a jungle, and because when it is snowing I go there to sleigh and have fun.
